Our Exposure Control Plan was reviewed with special attention being given to minimizing potential exposure of all members to infectious materials and contaminated items. We are currently in the process of updating our Exposure Control Plan.

Firefighters also re-certified in Healthcare Provider CPR. The Carroll County Ambulance conducted the very detail-orientated training session.

Sixteen year member Jeff Warnke submitted his resignation to the Department, effective March 1st. Jeff was a valuable member of the Department and his service to our organization is very much appreciated.

Both officers are now certified as armorers for the department issued Glock 17 handguns. The training was presented by Glock and certifications are valid for three years at which time an update is required.

Officer Jake Smith and Nathan Christian attended Drone training on February 21st. This training which was sponsored by the Federal Aviation Administration (FAA) and Iowa DOT informed the officers of law regulating the use of drones and how to report violators to the FAA. With the growing popularity in drone use, officers need to be aware of the changing regulations of the FAA and requirements that need to be followed for citizen use. This training was conducted in Carroll and was a regional training for law enforcement.
