CARROLL VOLUNTEER FIRE DEPT.

801 N. BELLA VISTA DR.
CARROLL, IOWA 51401

MEMO TO: Mike Pogge-Weaver, City Manager MPW

FROM: Greg Schreck, Fire Chief GS

DATE: April 21, 2020

SUBJECT: Scott Air Pack Purchase

With the arrival of the new fire truck expected in mid-May, I have determined the need to add two Scott X3 Pro 2018 Breathing Air Packs as part of the truck's unattached equipment. The cost of the two air packs will exceed $10,000.00. As a result, and as required by policy #0501 of the City of Carroll Purchasing Policy, I solicited price quotes for the packs from three suppliers. The suppliers contacted were Feld Fire of Carroll, IA, Clarey's Safety Equipment of Rochester, MN and MES of Freemont, NE

I received notice from Clarey's Safety Equipment that Carroll is outside of their Scott Authorized Sales Area and they were not able to provide a price quote. I did not receive any response from MES after three attempts. Feld Fire of Carroll submitted a quote of $5,220.00 per pack for a total cost of $10,440.00. Funding source for the two packs will be from debt proceeds from the Fire Truck Replacement Project and will remain within budget.

RECOMMENDATION: Mayor and Council consideration and approval of the purchase of two Scott X3 Pro 2018 Breathing Air Packs from Feld Fire for the total price of $10,440.00.
