The 2020 Census is closer than you think!

Here's what you need to know

IT'S ABOUT \$675 BILLION

The distribution of more than \$675 billion in federal funds, grants and support to states, counties and communities are based on census data. That money is spent on schools, hospitals, roads, public works and other vital programs.

TAKING PART IS YOUR CIVIC DUTY

Completing the census is mandatory: it's a way to participate in our democracy and say "I COUNT!"

YOUR PRIVACY IS PROTECTED

By law, your responses cannot be used against you and can only be used to produce statistics.

EVERYONE COUNTS

The census counts every person living in the U.S. once, and in the right place.

CENSUS DATA IS BEING USED ALL AROUND YOU

Businesses use census data to decide where to build factories, offices and stores, which create jobs. Local governments use the census for public safety and emergency preparedness. Real estate developers use the census to build new homes and revitalize old neighborhoods.
